

THE WEEKLY ORB.

VOLUME IV

BISBEE, ARIZONA, SUNDAY EVENING, MAY 28, 1899

NUMBER 3

TELEGRAPHIC SPARKS

Fresh From the Wires from All Points.

Victoria, B. C., May 27.—Dr. J. Dunbrack, who arrived from Alaska tonight says the reported distress among the prospectors at Dease Lake is not serious enough to require government relief.

Falmouth, May 27.—No attempt was made to drag the Paris off the rocks at Lowland point this morning on account of the failure of the tides. If there is a good tide this evening another attempt will be made to release the vessel. Her position is steadily becoming more perilous.

Paris, May 27.—Rosa Bonheur, the famous animal painter, died this morning of pneumonia. She was unmarried. She has for many years dressed in male attire by government permission. Her best known work is the "Horse Fair," in the Metropolitan museum at New York.

Paris, May 27.—The hearing of demand for a revision of the Dreyfus case is to open on Monday. Speeches will probably occupy four days and a decision given on June 2. An order has been issued prohibiting officers from visiting the Palace of Justice during the hearing.

St. Louis, May 27.—Col. Bryan was seen as the train he was to take was leaving, and expressed himself greatly pleased with last night's banquet. Speaking of the platform of the next national convention he said, "The Chicago platform will be reaffirmed entire, and planks added to cover new questions. The trust issue will be the most important of all issues."

New York, May 27.—Coney Island was swept by a conflagration early this morning, which destroyed eight blocks of buildings in the heart of the resort. The fire is believed to have been incendiary. The local department was unable to cope with the flames. Brooklyn was called on for assistance as the flames threatened to destroy every building in Coney Island. After many hours fighting the fire was got under control.

Manila, May 27.—A small American reconnoitering party encountered a body of rebels near Santa Anita and a hot fight followed. The Americans were holding their own when General Funston and the South Dakota regiment appeared and the rebels were forced to retreat. Six Americans were wounded, one a lieutenant. Ten insurgents were killed, many wounded and captured. General Montero, one of the Spanish commanders is dead of wounds received in battle. Zamboanga has been evacuated by the Spanish garrison 1700 which has arrived here. Insurgents took possession of the place as soon as the Spaniards left.

G. W. Pitcock, former correspondent of the Tombstone Prospector at Bisbee, and who, by the way, was instrumental in placing that great moral family journal on a firm and paying foundation, as he had previously done with Phoenix Republican, and also with the Tucson Star, is now engaged in the same laudable work for the Citizen, and has added to his other great accomplishments by assuming the role of prophet. He says that within two years Tucson will be the largest city in the territory; in consequence of which prediction, it is said, town lots in the old pueblo are going skyward and another bank is about to be started.

Jas. Munch, the manager of the Bisbee baseball club has received a letter from Tucson asking if it would be possible for the team to come there and play a series of three games on July 2nd, 3rd, and 4th, they to pay all the expenses of the trip. What action will be taken in the matter cannot be stated as yet as the home team have accepted Tombstone's offer but as the Benson team has notified them that it would be possible to play, it may be that the offer of the Tucson club will be accepted. A letter has been sent to the committee at Tombstone asking them what further arrangements for a game have been made there and upon that reply depends the action in the Tucson offer.

Condensed News.

The striking Paris letter carrier have won their point and gone back to work. The winner of the Fitzsimmons-Jeffries fight will be challenged by Kid McCoy for a finish fight to take place in Denver.

Owing to melting snows in the mountains the Rio Grande river is growing festive and high waters are to be expected soon.

"Fighting Bob" Evans was with ex-President Cleveland on his recent fishing excursion on Lake Erie, and it is said he got restless. The chances are he had something besides Erie water to drink. Grover can certainly afford to entertain his guests well.

Jerry Simpson now says "Puffer" is a traitor for deserting the populists. A wise man changes his mind when it is demonstrated to him that he is wrong. A man who is too prejudiced to give his gray matter a chance may not be a fool but it would be more to his credit if he was.

An American giving the name of M. E. Foley and occupation as gambler, was arrested in Casas Grandes, Mexico, the other day. He was supposed to be an accomplice of the train robber arrested a short time ago at the Mexican Central depot at Juarez for train robbery, at Coleman, Texas.

Wong Ti, a Chinese immigration agent who has been working along the Mexican border, has been captured and is now in custody in El Paso. The officials were after him a year ago, though two Celestials who were with him were grabbed. Since then he has kept below the line till a few days ago, when he crossed over to his sorrow.

A New Brunswick man, born in Scotland 109 years ago, has never seen a railroad, has used tobacco since boyhood, and today his pipe is his great luxury. There are few signs of disintegration in this hardy old Highlander. His voice is strong, his eye clear, his pulse is full and regular, with indications of years of life to come. This is not a Sunday school story.

John Henry Collins, serving a life sentence in the Kansas penitentiary for the murder of his father, has changed his occupation, he is now learning the printing trade with a view of becoming an editor. When first placed in the penitentiary he was put to work in the tailoring department to learn his trade under the tutelage of Emmet Dalton, the noted train robber. He soon tired of running a sewing machine and working all day stitching pantaloons.

Reports arrive that the "Queen Saboteur" copper mining property, about fourteen miles beyond the Phoenix mine, is developing beyond the most sanguine estimation of its owners. A ledge has been penetrated by a tunnel for twenty four feet and it remains to be seen what the width of the ledge is. Although the ore is of a low grade it appears to be plentiful and easily mined. The sulphur, however, have not been reached and by seldom failing indications it is thought that a rich body will eventually be uncovered.—Republican.

The beef trust has reached its paw into this territory and placed it heavily upon one of our principal industries. Our correspondent at Bonita informed us last week that Swift & Co., of Chicago had been awarded the beef contract at all the military posts in the department of Colorado, which includes Arizona. Heretofore our local cattlemen have been allowed to furnish beef to the posts in Arizona, and it has been a desirable market for beef. It is announced that refrigerated beef is to be furnished at all posts. Now, how long will it be until Swift & Co., or some other branch of the beef combine will supplant the local butchers in Tucson and Phoenix.

I consider it not only a pleasure but duty I owe to my neighbors to tell about the wonderful cure effected in my case by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I was taken very badly with the flux and procured a bottle of this remedy. A few doses of it effected a permanent cure. I take pleasure in recommending it to others suffering from this dreadful disease.—J. W. LYNN, Druggist.

From every section of Arizona comes complaint of suffering from drought. Water is short for irrigation, cattle ranges are barren of grass because of a lack of spring rains, and in northern Arizona it is said if rain does not come soon many small mills will have to close down for want of water to run. In this valley water is now on turn in most of the canals, and until rain comes there will be a loss of crops.—Solomonville Bulletin.

Coffee like your mother used to make at the Can Can.

The Warren Mining District.

It is a privilege as well as the solemn duty of a newspaper to champion the interests of the community in which it is published. This privilege the Orb has always availed itself of, and this duty it has, in its humble way, endeavored to perform. It believes that, as from the very inception of the camp, the growth of it has been steady and as permanent as is possible for a town to be whose future is based alone upon the perpetuity of her mine, that in the future this growth will be more rapid and of a more substantial character. That our borders will be extended, and the number of our mines augmented and their increased output so enlarged that the Warren mining district, in Cochise county, Arizona, will be known as the banner copper producing district of North America, if not of the world. This prediction for our territory is almost certain of realization, and that at no very distant day. Bisbee now has a population of between 5,000 and 6,000 souls, who draw their support almost entirely from the workings of the Copper Queen property, which is the only company in the district that is producing metal. But now there are four other organizations in the district, all of which have flattering prospects, and it is confidently expected that ere another year has passed by one of these companies, and possibly three of them, will have so far developed their properties that the erection of smelters will be justified.

The South Bisbee company has the most encouraging indications for the opening up of a vast property, while the Lowell and Arizona people have already struck ore of good quality, but not in a large body. Still the management here is satisfied that the main ore body is very close by and that a short time expended in drifting will uncover it. The Cochise people are energetically pushing development on their property, with indications improving daily.

These companies are each possessed of large properties in this district, now under development, while there are other valuable claims being worked which will shortly be taken hold of by men of ample means to push development forward to the successful opening up of dividend paying properties.

With these facts in view the Orb is fully justified in predicting for this mining district a prosperous and even brilliant future.

Geo. H. Curry.

Watchmaker and Jeweler; watches, clocks and jewelry repaired. Best work, charges moderate and consistent with good workmanship. Shop, Main street, with Weaver, the tailor, in Can Can building.

Don't think you can cure that slight attack of Dyspepsia by dieting or that it will cure itself. Kodol Dyspepsia Cure will cure it; it "digests what you eat" and restores the digestive organs to health. Copper Queen Mining Co.

Phillip Waldheim, practical boot and shoemaker, has just received a fine line of boots and shoes for men, women and children, which he is offering at reasonable prices. Give him a call before purchasing elsewhere, Upper Main street at flood gate.

If you have piles, cure them. No use undergoing horrible operations that simply remove the results of the disease without disturbing the disease itself. Place your confidence in DeWitt's Witch Hazel Salve. It never failed to cure others; it will not fail to cure you. Copper Queen Mining Co.

Suits cleaned at \$2 on short notice at Harris the Tailor.

If you suffer from tenderness or fullness on the right side, pains under shoulder-blade, constipation, biliousness, sick-headache, and feel dull, heavy and clogged your liver is torpid and congested. DeWitt's Little Early Risers will cure you promptly, pleasantly and permanently by removing the congestion and causing the bile ducts to open and flow naturally. They are good pills. Copper Queen Mining Co.

For tin roofing and guttering, go to Joseph Schwartz. Now is the time to get the rainy season. A. 14-14.

J. V. Vickers, of Arizona, was a visitor at the yards today. He was a string of the CUC cattle on the way up and a portion of them will be on the market here Monday. He is bringing some of his best heifers. These are the same that sold on the market last year for \$25 and took a medal for calves at the range cattle show last winter—Denver Stockman.

Experience is the best teacher. Use Acker's English Remedy in any case of coughs, colds or croup. Should it fail to give immediate relief money is refunded. 25 cts. and 50 cts. Sold by J. S. Williams & Co.

ARIZONA today is the copper center of the world and mining men from all sections are here in search of copper property. The copper belt of this territory covers a vast area and there is ample room for all.

BETWEEN those expansion and imperialism the American people are promised a "warm time" for the next few years. The people of the United States have been voting for all three of them for over thirty years, and are now getting what they don't want.

BELMONT, one of New York's four hundred and millionaires, is out bombing Bryan for president, and proposes to lead the New York delegation to the democratic national convention. The World, of New York, is also said to be out for Bryan and a new issue. How this world changes!

SOME few European naval officers have expressed the opinion that our ships and fighting methods in some way, compared very favorably with Europe. It will take actual experience to teach those fellows the lessons they must learn.

BOSTON will make herself solid with this administration yet. A large number of strong minded women met there the other day and concluded that the federal government should take the south in hand, furnish military protection to the negroes, stop lynching and count the negro vote. Now let Mr. Atkinson hunt his hole.

WHEN it comes down to actual test man is very much the same animal wherever you find him. We expend our breath running down the czar of Russia for the imagined oppression of his subjects, and our newspapers are fired with a sense of horror because the czar insists upon exercising this power as boss of the job to rule out of mails what he does not like, and his persistent censorship of the press, but our own government stopped Atkinson's compilation of speeches from the Congressional Record going through the mails, and now Otis has an editor in jail over in Manila. We will be more careful in making unkind remarks in the future.

This state democracy of Missouri, held a meeting in St. Louis Thursday last and the gathering was telegraphed all over the country as a meeting of the National Democratic Committee. It is not thought that there will be any meeting of the national committee until the return of chairman Jones from Europe next fall. Ex-governor Shaw presided at the St. Louis meeting. After adjournment was had a banquet was held in the evening at which Harry B. Hawes was toastmaster and who, in the course of his introductory remarks said:

"It was not intended that this dinner be merely a means of affording entertainment, but it was believed by its promoters that the serious discussions to be held tonight would be a means of crystallizing public sentiment against encroachment upon the liberties of the people by gigantic monopolies and trusts. It is not thought or desired to push to the back of the mental stage of 1899 nor to lessen in any particular the fight to be made upon the greatest of all trusts, the money trust, which is greater than all, is more dangerous than all and by its excess renders possible many combinations of wealth that without it could not survive."

Several speakers, replying to toasts, made telling speeches but the leading spirit of the young democracy W. J. Bryan was twice and in replying to the toast "Trusts" said: "An actor who visited Nebraska recently on learning from the republicans that confidence had been restored, remarked that he had examined Webster's dictionary to learn what confidence meant and found confidence defined as 'trust' and then he understood that confidence had really been restored. More trusts had been formed during the last two years than existed at the beginning of the present administration and the national capitalization of trusts now in existence approaches if it does not equal the world's total supply in gold and silver. The influence of trusts has become so enormous, the people without respect to party, were asking themselves how the evil can be remedied. It is a trust and then he understood that confidence had really been restored. More trusts had been formed during the last two years than existed at the beginning of the present administration and the national capitalization of trusts now in existence approaches if it does not equal the world's total supply in gold and silver. The influence of trusts has become so enormous, the people without respect to party, were asking themselves how the evil can be remedied. It is a trust and then he understood that confidence had really been restored. More trusts had been formed during the last two years than existed at the beginning of the present administration and the national capitalization of trusts now in existence approaches if it does not equal the world's total supply in gold and silver. The influence of trusts has become so enormous, the people without respect to party, were asking themselves how the evil can be remedied. It is a trust and then he understood that confidence had really been restored. More trusts had been formed during the last two years than existed at the beginning of the present administration and the national capitalization of trusts now in existence approaches if it does not equal the world's total supply in gold and silver. The influence of trusts has become so enormous, the people without respect to party, were asking themselves how the evil can be remedied. It is a trust and then he understood that confidence had really been restored.
